INTERVIEW SUMMARY RECORD

This will document the interview which took place on Feb. 13, 2004. The claims were discussed as well as the Wilburn and Helixon references. The Examiner suggested that the terms proximal and distal be used to reference the piston being on one side or the other of the rimmed end of the body. No agreement as to the claims was reached.

Applicant wishes to thank the Examiner for the interview and her efforts in regard to the application.

Respectfully submitted,

WOODLING, KROST & RUST
